

Maternity/Infant/Pediatric Music Therapy

This presentation will provide an international perspective on family-centered music therapy with focus on a continuum of care. Specific approaches as they relate to music medicine and music therapy, from maternity-childbirth through NICU and pediatric care with enhance perspectives on how music and medicine can integrate key medical areas with therapeutic alliances amongst parents, carers, siblings and families The presenters will provide opportunities for developing a cohesive perspective on program instituting possibilities. Through integrating and collaborating with key disciplines from inception, to fragile birth and continued care for children, music alliances and principles that carry optimal perspectives of treatment will provide a groundwork for music therapy and music and medicine as a uniquely diverse continuum.

Joanne Loewy DA, LCAT, MT-BC JLoewy@chpnet.org is the Director of the Louis Armstrong Center for Music and Medicine, & Associate Professor at Icahn School of Medicine at Mount Sinai. She is a co-Editor in Chief, with Ralph Spintge MD, of the international, peer reviewed journal 'Music and Medicine' & a Founding Member of the International Association for Music and Medicine.

Ming-Ming Liu MA, mingmingliu.2006@aliyun.com is an Assistant Professor, Director of Music Therapy Center, Central Conservatory of Music, Beijing, China. She is Editorial Board of Creative Arts in Education and Therapy, the new and first journal of art therapy in China. She has devoted herself to setting up music therapy in the general hospital setting.
