

Tingting Zhang's Resume

Senior registered nurse, Nurse Supervisor

Tingting Zhang has graduated from School of Nursing, Sun Yat-sen University in July 1988. She worked as a pediatric nurse in Department of Pediatrics, The First Affiliated Hospital of Sun Yat-sen University from July 1988 to December 1999. She has been working as a specialized nurse of pediatric oncology and pediatric endocrinology in Department of Pediatrics, The First Affiliated Hospital of Sun Yat-sen University since December 1999. Tingting Zhang is also the vice president of the first session of adolescent medicine and social work. She has been engaging in pediatric nursing for 28 years. She is very experienced with master nursing skills and operation of varied specialized diseases. She has generalized new nursing concepts by participating in two research projects and publishing papers. She was the leader to advocate the PICC, which was to promote the solution of obscure practical nursing problems and skills in hospital in 2000. She was also the trainer to other departments and hospitals, to supervise the difficult venipuncture and training of PICC. Unit 2 department of pediatrics was the first department to carry out ultrasound guided PICC in 2010. She is innovative in promoting characteristic nursing, such as "sweet home" service. Since 2006, She has pioneered several programs, including *Soothing Care for Tumor Patients*, *Communicative Platform Between Nurses and Patients*, *Art Workshop for Pediatric Patients*, *Dreams Come True*, and *Birthday Party*, which helped relieve patients' stress and improve the relationship between nurses and patients. She also helped arrange play therapy and music therapy, which were received positive feedback and reported by several media.
